

Dear friends,

Last 5th October 2008, as you probably know, I was diagnosed with a brain tumor. My life changed that day. Cancer, and in this case, brain tumors, is something humanity should fight in order to save lives and offer quality of live to those of us who suffer from this illness. After several operations and different treatments I decided, together with my family, to create the Seve Ballesteros Foundation. Our main target is helping brain tumor investigation. I have always been very lucky. Great doctors have been looking after me at La Paz Hospital in Madrid, and I thank them for all the work they have done and still do to help me fight cancer.

I am also very proud of being able to help and contribute to help others in the future. I hope this symposium will increase the exchange of information among scientists and all together work to find the solution to an illness that affects so many people around the world. I want to thank all participants and institutions that make possible this symposium hoping that it will continue in time to develop and help present and future victims of this disease. I am delighted to welcome you all to the I Seve Ballesteros Foundation Translational Neuroncology Summit.

Severiano Ballesteros

TRANSLATIONAL NEURONCOLOGY SUMMIT:

WHERE BASIC SCIENTISTS AND CLINICIANS GET ALL TOGETHER

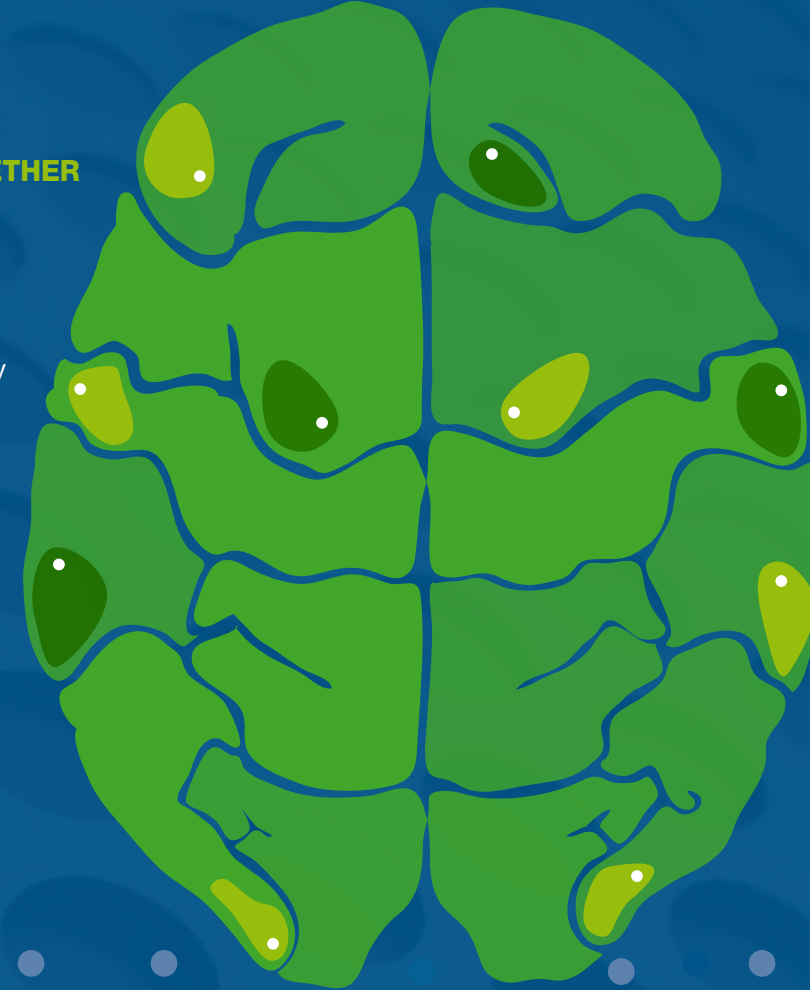

Madrid, 29th of October 2010

Audience: Basic and translational scientists, medical and radiotherapy oncologists, neurosurgeons, neurologists, neuro-radiologists, pathologists and all involved in brain tumour management.

The official languages of the Symposium are Spanish and English. Simultaneous translation will be provided.

I SEVE BALLESTEROS FOUNDATION Translational Neurooncology Summit

Scientific Program

09.00 - 09.20h

Welcome

09.20 - 09.50h

NEW IMAGING MODALITIES FOR BRAIN TUMOURS

Chairperson: **Dr. Juan Álvarez Linera**

Department of Neuroradiology, Hospital Ruber International, Madrid, Spain

- **Dr. Meng Law**

Professor of Radiology and Neurological Surgery, Director of Neuroradiology, Keck School of Medicine, University of Southern California, Los Angeles, California, USA

09.50 - 10.00h

Discussion

10.00 - 10.30h

PROTEOMIC FACILITIES AND BRAIN TUMOURS

Chairperson: **Dr. György Marko-Varga**

Clinical Protein Science & Imaging Group, University of Lund, Lund, Sweden

- **Dr. Manuel Fuentes**

Harvard Institute of Proteomic, Harvard Medical School, Massachusetts, USA

10.30 - 10.40h

Discussion

10.40 - 11.10h

GENOMIC APPROACHES TO HIGH-GRADE GLIOMAS

Chairperson: **Dr. Manuel Hidalgo**

Centro Integral Oncológico Clara Campal, Madrid, Spain

- **Dr. Will Parsons**

Section of Hematology-Oncology, Baylor College of Medicine, Texas Children's Cancer Center and Hematology Service, Texas, Houston, USA

11.10 - 11.20h

Discussion

11.20 - 11.50h

DRUG TARGETING AND DESIGN FOR BRAIN TUMOURS

Chairperson: **Dr. Rosario Perona**

Instituto de Investigaciones Biomédicas, Consejo Superior de Investigaciones Científicas (CSIC), Madrid, Spain

- **Dr. Heidi S. Phillips**

Department of Tumor Biology and Angiogenesis Genentech, Inc., San Francisco, California, USA

11.50 - 12.00h

Discussion

12.00 - 12.30h

Coffee break

12.30 - 13.00h

RADIOTHERAPY FOR THE NEW CENTURY: FUTURE FACILITIES.

Proton beam facilities from Europe

Chairperson: **Dr. Francesc Graus**

Department of Neurology, Hospital Clínic de Barcelona, España

- **Dr. Raymond Miralbell**

Radiation Oncology Division, Hopital Cantonal Universitaire de Genève, Switzerland

13.00 - 13.10h

Discussion

13.10 - 13.40h

NEURO- SURGERY AND TECHNOLOGY INNOVATION

Chairs: **Dr. Jorge Diamantopoulos**

Department of Neurosurgery, Hospital Ramón y Cajal Madrid, Spain

Dr. Javier Heredero

Department of Neurosurgery, Hospital de La Paz, Madrid, Spain

- **Dr. Patrick Kelly**

Department of Neurosurgery, NYU Langone Medical Center New York, USA

13.40 - 13.50h

Discussion

13.50 - 14.20h

ANTI-ANGIOGENIC THERAPY AND GLIOMAS

Chairs: **Dr. Carmen Balaña**

Servicio de Oncología Médica, ICO - Hospital Germans Trias i Pujol, Badalona, Spain

Dr. Pedro Pérez Segura

Servicio de Oncología Médica, Hospital Clínico San Carlos, Madrid, Spain

- **Dr. Nicholas Butowski**

Department of Neurological Surger, University of California, San Francisco, USA

14.20 - 14.30h

Discussion

14.30h
