

CD30-POSITIVE LYMPHOID MALIGNANCIES

SECOND WORKSHOP

4-6TH JULY 2016
SANTANDER
SPAIN

Second Workshop on CD30-Positive Lymphoid Malignancies

Santander- Hospital Universitario Marqués de Valdecilla. Spain

4-6TH JULY 2016

This is an educational activity, developed by the Pathology Service in the Hospital Universitario Marqués de Valdecilla and supported by a grant from TAKEDA, designed to improve the diagnostic capacity of haematopathologists across the world, with special focus in Asia, Latinoamerica, Africa, Australia and East-Europe

This July 4-6th Workshop is the second of a series of Workshops, where we are addressing the diagnostic criteria for the recognition of CD30-positive malignancies -Hodgkin lymphoma, Gray-zone lymphoma, Anaplastic Large Cell Lymphoma and cutaneous CD30 positive disorders- through a combination of :

- Introductory talks.
- Discussion of a reference case collection, previously accessible through digital slides.
- Joint discussion on multiheaded microscopes of consultation cases, previously provided by the participants.

A maximum of 20 pathologists are expected to participate in each of the Workshops. Candidates interested in participating should send a letter of interest together with a short CV and at least one reference letter to:

mapiris@humv.es

SECOND WORKSHOP

4-6TH JULY 2016
SANTANDER
SPAIN

PRELIMINARY PROGRAMME

4th July

08:30: Welcome and introduction

08:45-09:45: Requisites for lymphoma diagnosis

09:45-13:45: Study of reference cases

13:45-15:00: Lunch

15:00-16:00: CD30 expression, from biology to clinics

16:00-18:00: Joint discussion on multiheaded microscope

5th July

08:45: CD30+ lymphoproliferative disorders

09:45-13:45: Study of reference cases

13:45-15:00: Lunch

15:00-16:00: Immunohistochemistry lab

16:00-18:00: Joint discussion on multiheaded microscope

6th July

08:45: Molecular diagnosis lab, IGH and TCR analysis

09:45-13:45: Study of reference cases

13:45-15:00: Lunch

15:00-16:00: Somatic mutation analysis. NGS

16:00-18:00: Joint discussion on multiheaded microscope
