SUGGESTED HOTELS

There are some hotels near the Hospital but they are very expensive. The suggested hotels are located in downtown Barcelona. The Hospital is very well connected to the downtown area via subway. You can check these hotels by internet.

| HOTEL CATALUNYA | |

COURSE DESCRIPTION

The course is organized as a theoretico-practical review of relevant aspects of digestive pathology.

The course is designed to be very interactive. The faculty will give lectures, show typical morphologic entities and discuss how to approach specific issues in multiheaded microscopes (two 16 headed microscopes and 2 microscopes with projection screens), dividing the attendants into 4 different groups. The attendants will rotate through all settings, so everyone has similar exposure to the invited faculty, cases and settings.

The course is limited to 90 individuals in order to accommodate everybody at the practical sessions.

An option to attend only lectures is also available with a lower registration fee and limited to 125 individuals plus.
